- 4:30pm Workshop with Mark Bradley
- 5:45pm Q&A Period
- 6:00pm Dinner and Networking
- 6:30pm Roundtable Discussion

Seminar Description

Stop Hoping for Profit and Plan for It!

Join us as Mark Bradley of the Landscape Management Network, discusses his approach to the financial planning and management of a landscape company. Mark openly exposes the very same management systems – and how to implement them - that powered the growth of his landscape contracting company from startup to \$7 million in annual sales, while employing a staff of just 30 people. “Each year, I decide how much profit I want to earn; and then I go out and make it happen.” Don’t miss this rare opportunity to hear exactly how he does it!

“I really enjoyed the LMN seminar. It was probably the best [workshop] ever. A real eye-opener. For me, this is like an owner’s manual on how to run a landscaping business”
- Member of Landscape New Brunswick

Mark Bradley

President of The Beach Gardener and Landscape Management Network, Brooklin ON

Mark Bradley’s company was incorporated in the green industry 10 short years ago, and has since grown to one of Canada’s largest and most prestigious landscape construction firms. His quest for excellence is demonstrated both in the field, where their work is annually recognized with design/build awards, and in the boardroom. His presentations and mentoring services are sought out across Ontario for their candid exposure of the values, systems and numbers that have propelled The Beach Gardener to the top of its industry.
